

Action Points to Include in Country Plan

What are our most critical priorities across thematic areas? How do they link to existing plans?

- SUPERVISION
- SUPPLY CHAIN
- MEDICINES
- SENSITIZATION

What is achievable in the next 6 months?

- Training and deployment of a sufficient number of quality CHWs in areas with difficult access
- Orient EPI/ACC agents and those responsible for community-based services in the districts on supervision of the CHWs
- Sensitization of iCCM through the media, religious leaders, associations, town criers, and members of COSAH
- Strengthen the logistics information system
- Coordination and review of quantification
- Advocacy for funding for medicines
- Dissemination of the content of the symposium at the political level
- Dissemination of the content of the symposium at the partner level
- Develop harmonized data collection tools with images
- Training of providers on data collection
- Put in place a monitoring, supervision, and evaluation system
- Use of One Health to estimate costs
- Funding of supervision for transportation, logistics, gas, and upkeep
- Salaries for CHWs
- Monitoring of mothers and newborns after birth by CHWs
- Explore the possibility of support with telephone operators

Action Points to Include in Country Plan

What is achievable in the next year?

- Strengthen/put in place CHW associations and fund their action plan
- Put in place a motivational system for communities to ensure sustainability of actions
- Make the thematic group for child survival functional
- Use mobile videos in place to strengthen sensitization
- Advocacy for funding for medicines
- Strengthen coordination of interventions with regular meetings
- Develop a strategic community health plan

What additional resources will we need for each priority area?

- Technical assistance for needs estimation
- Technical assistance for management of the supply chain

What are our next steps as a country to implement these next steps?

- Mapping of zones with difficult access for the deployment of CHWs
- New national activities
- Use of One Health to estimate funding costs of supervision for transportation, logistics, gas, and upkeep
- CHW salaries
- Computerization of data at the DPS level
- Creation of community funds for CHWs
- Put in place a system for collection of iCCM data via SMS
