

Action Points to Include in Country Plan

What are our most critical priorities across thematic areas? How do they link to existing plans?

- Training of CHW after sensitization of service providers
- Review CHW policy to accommodate the new development, including treatment of pneumonia, essential newborn care at community level, and nutrition

What is achievable in the next 6 months?

- Advocacy for policy review, more staff for MOH Community Health, and SCM
- Strengthen community health TWG
- Implement training materials
- Develop M&E Plan for community health

In the next year?

- Supportive supervision system – CHW clusters with supervisor
- Explore mHealth for data collection
- Develop BCC training for iCCM and CHWs

What additional resources will we need for each priority area?

- Funding
- More staff
- Technical assistance

Action Points to Include in Country Plan

What are our next steps as a country to implement these next steps?

- Convene a task force between child health, reproductive health, and community health (inter-ministry)
- Brief the implementing partners and donors on training needs during the TWG meeting and develop an action plan with concrete steps

Summary statement on approach and next steps:

- Partnership is key to improve the content and quality of community health program
- M&E needs strengthening and innovation
- Need for community participation and ownership
