

Action Points to Include in Country Plan

What are our most critical priorities across thematic areas? How do they link to existing plans?

- Strengthening the use of data, particularly for supply chain management
- Engaging stakeholders (e.g SWAP, ministry of finance and MOH) regarding issues of financing for iCCM

What is achievable in the next 6 months?

- Developing a Sustainability Plan
- Review newborn care policy documents
- Reviewing the referral process (particularly with attention to different levels of referral – it may be necessary to refer cases directly from HSA to District Hospital)
- Identify, synthesize, and coordinating GIS mapping data. Include the NSO in discussions.
- Utilize RMNCH process for additional funding needs.
- Strengthen collaboration between CHAM and DHOs
- Orient and strengthen DHO and Health Facilities regarding cStock

In the next year?

Continue all processes started in first 6 months

- Strengthen Supply Chain Management
→ Strengthen cStock data use at all levels
- Support & scale up DHIS tool and data Management for iCCM. . .

Action Points to Include in Country Plan

What additional resources will we need for each priority area?

- Technical Support from WHO Newborn Team
- Coordination of all partners working on MNH to do costing of adding the newborn to iCCM
- Technical Support for GIS Mapping
- Identifying funding resources
- Capacity building of nation M & E teams in statistical analysis

What are our next steps as a country to implement these next steps?

- Convene a meeting with MOH (already organized by Mr. Nsona) to develop detailed action plans
- Report to the iCCM Technical Working Group

Summary statement on approach and next steps:

Leadership will be taken by the MON IMCI Unit (Mr. Nsona). Participants of this global meeting will support the MOH in developing and implementing action plans.
