Participants:
MCSP: Dyness Kasungami
JSI: Alexis Heaton
JSI: Sarah Andersson
SIAPS: Jane Briggs

Apologies: Musonda Kasonde UNICEF

Chairperson: Jane Briggs

Minutes:

Presenter	Highlights of Discussion	Status/Outcome
• **CORE Group Spring meeting iCCM TF session**		
Dyness	Discussion over content of session of SCM sub group in the CORE group spring meeting iCCM panel. Need to show how to move from a pilot program to larger scale or national scale system from the initial design stage. It was agreed that the example will be C-Stock in Malawi which was scaled up nationally under SC4CCM. The process of progressing from pilot to scale implementation will be presented emphasizing the importance of stakeholder buy in etc. However it was agreed that the importance of coordination at central level for implementation of national scale ICCM programs particularly for procurement is another important message which can be touched on briefly. This would show NGOs the importance of supporting national systems. This piece could be included in the introduction part to the session. It is useful to have two organizations represented and show two country examples to show diversity	• Sarah to rework the description to send to Dyness by the end of the day • Sarah and Jane will work on presentation and discuss before the Core Spring meeting (April 13-17)
• **Participation in group**		
Sarah & Alexis	JSI will continue to be involved in the group even tho SC4CCm has ended. They will participate in meetings, although not always both Sarah and Alexis, but at least one of them and not someone new who has not been involved in CCM. It is not clear the level of involvement they can have in the activities of the group, but they will stay connected to the group for the time being.	• Alexis & Sarah to keep us updated of any changes

• **Role of the group - TOR**		
Jane	The TOR had been revised and circulated after the discussion in the previous meeting. On review, Dyness commented on the importance of showing the role of the group in providing tools and resources Once the TOR is final and approved by al members, it can be uploaded to CCM central SCM sub group page. The page is still to be revised per the previous recommendations prior to Soo's departure.	• Jane to revise and re-circulate • Upload on CCM central • Update the SCM subgroup page on CCM central as per the previous suggestions
Presenter	**Highlights of Discussion**	**Status/Outcome**
• **2015 workplan**		
Jane	Reviewed draft workplan Jane had circulated prior to meeting. Two main objectives to group the activities around: providing resources and supporting NGOS in integrating SCM and scale up. Under the first objective it is important to make the link with the PSM sub group of the iCCM FTT. Also the group needs to look for other opportunities to present or disseminate. The June meeting of the 1million CHWs was presented as one possibility but was concluded not to be a strategic opportunity at this stage. Also the country workshop that had been proposed as a result of the New York meeting (UNICEF/UNFPA/GF) is not likely to happen soon as more detailed in country work is proposed with a workshop later. A mini iCCM symposium may be organized during the ASTMH meeting in October in Philadelphia, which may be another opportunity. Under the second objective, it was agreed that more specific discussion is needed on what aspects to highlight in the advocacy material/case study summaries. There should also be an active dissemination not only on the CCM central website but also through CORE group. The mapping of SCM activities by project /partner and country seems to still be relevant and can learn from the experience of the OR sub group. It was not possible to discuss the final 2 activities due to time. All of objective 2 activities should be discussed in more detail in the next meeting	• Jane will revise workplan • Any additional comments send to Jane • Dyness to find out more on the ASTMH meeting • Dyness to send the OR mapping sheet • Will focus on more detailed discussion of last activities in next meeting
