

Country: BURKINA FASO

Action Points to Include in Country Plan

What are our most critical priorities across thematic areas? How do they link to existing plans?	
<p>1. Coordination and Policy Setting :</p> <ul style="list-style-type: none"> • Effective implementation of scale-up of iCCM of diarrhea with oral rehydration salts and zinc • Effective implementation of home-based newborn care in the 9 districts of the two regions of the North and North Central • Adoption of the health-promotion policy • Elaboration and adoption of the strategic plans of PS and child survival • Make amoxicillin available in the treatment of pneumonia in the place of the cotrimoxazol • Extension of CCM of the IRA in 9 districts of the northern part of the North Central region <p>2. M&E and HMIS :</p> <ul style="list-style-type: none"> • Strengthen iCCM monitoring activities <p>3. Supply Chain Management :</p> <ul style="list-style-type: none"> • Establishment of adequate mechanisms for resupply of the medicines in the ASBC <p>4. Costing, Cost-Effectiveness, and Financing :</p> <ul style="list-style-type: none"> • Search for funding for the extension of the support of pneumonia in 9 districts of the northern regions of the center-north <p>5. Human Resources and Deployment :</p> <ul style="list-style-type: none"> • Profile definition of the ASBC adapted to the activities of CCM • Reflection on the mechanisms of perennial motivation for the retention of the ASBC 	
What is achievable in the next six months?	What is achievable in the next year?
<ol style="list-style-type: none"> 1. Strengthen iCCM monitoring activities 2. Start of MEO for scale-up of iCCM of diarrhea with oral rehydration salts and zinc 3. Start MEO for implementation of home-based newborn care 4. Search for funding for the extension of CCM of IRA 5. Finalize the definition of a profile for the mechanisms for CHW/ASBC motivation 6. Adoption of the health-promotion policy 7. Elaboration and adoption of the strategic plans of PS and child survival 	<ol style="list-style-type: none"> 1. Strengthen iCCM monitoring activities 2. Establishment of adequate mechanisms for resupply of the ASBC in medicines 3. Continuation of the MOE of the CCM of malaria, of diarrhea, of malnutrition, of the care of a newborn and of IRA 4. Make amoxicillin available in the treatment of pneumonia (in place of cotrimoxazol) 5. Extend the CCM of the IRA in nine districts of the northern regions and center-north
What additional resources will we need for each priority area?	
<p>1. Strengthen iCCM monitoring activities</p> <ul style="list-style-type: none"> • Financial resources (to be determined) for the enhancement of skills for the staff in supervision techniques, for the support of supervision charges, for the revision of the tools for monitoring and improving the quality of care offered by the CHW. 	

- 2. Start MEO for scale-up of iCCM of diarrhea with oral rehydration salts and zinc**
 - Additional financial resources (\$1,160,340 over 3 years) for the overall financing plan for scale-up of CCM of diarrhea with the oral rehydration salts and zinc (Supplement the financing provided by MI)
- 3. Start MEO for implementation of home-based newborn care**
 - RAS (funding acquired H4)
- 4. Search for funding for the extension of CCM of IRA**
 - Need technical support for drafting of a proposal to be submitted to potential donors
- 5. Finalize the definition of a profile of the ASBC adapted to the activities of CCM**
 - RAS (funding already acquired from UNICEF)
- 6. Adoption of the health-promotion policy**
 - RAS (funding already acquired from MoH)
- 7. Elaboration and adoption of the strategic plans of public health and child survival**
 - Need support in elaborating the child survival plan (UNICEF WCARO)
- 8. Establishment of adequate mechanisms for resupply of the ASBC in drugs**
 - Need technical and financial support
- 9. Continuation of the MOE of the CCM of malaria, of diarrhea, of malnutrition, of the care of a newborn and of IRA**
 - Need for financial resources (to be determined)
- 10. Make amoxicillin available in the treatment of pneumonia (in place of cotrimoxazol)**
 - Need financial resources for the purchase of amoxicillin (to be determined)
- 11. Extend the CCM of the IRA in nine districts of the northern regions and center-north**
 - Need financial resources

What are our next steps as a country to implement these next steps?

1. Report back on the participation of Burkina Faso at the symposium at the decision making level (week of 10 March)
2. Report back on the PTF (WHO, UNICEF) (week of the 10th)
3. Report back on the CCM 4
4. Develop a plan of action for the implementation of the identified priority activities
5. Put in place a plan for monitoring of activities
